Consent to Examination and Treatment

Physical therapy is a patient care service that aims to treat disease, injury and disability by examination, evaluation, diagnosis, prognosis, and intervention through the use of rehabilitative procedures, mobilization, manual therapy, exercises, and more. Physical therapy also aids the patient in achieving their maximum potential within their capabilities and to accelerate and recue the length of recovery. Physical therapy is provided to individuals of all ages regardless of gender, color, ethnicity, creed, national origin, or disability.

Fenix Physical Therapy & Performance, LLC (Fenix PTP) is a hands on clinic. Some of the hands-on treatment techniques require deep pressure, which may cause bruising, and periods of increased soreness. This can last from 1-72 hours. Symptoms may also change and move to other parts of the body. This is not unusual and is rarely a concern; however, please ask if you have any concerns or questions.

It is your right to decline any part of your treatment at any time before or during treatment, should you feel any discomfort or pain or have other unresolved concerns. It is your right to ask your physical therapist about the treatment they have plans based on your individual history, physical therapy diagnosis, symptoms, and examination results. Consequently, it is your right to discuss the potential risks and benefits involved in her treatment.

Your response to physical therapy intervention varies from person to person. Therefore, **Fenix Physical Therapy and Performance, LLC, does not guarantee what your response will be to a specific treatment, nor does it guaranteed that the treatment will help resolve the condition for which you are seeking treatment.** The number of treatments needed and recovery time can vary due to the age of the injury and patient, number of times injured, and many other contributing factors. Furthermore, there is a small possibility that the physical therapy treatment may result in aggravation of existing symptoms and may cause pain or injury.

Fenix PTP also provides hands-on strength and conditioning services, and may involve placing of hands on the client in a professional manner to guide feedback for better movement or instruction on new techniques. All procedures will be explained to the patient prior to performing. There is a small risk that strength and conditioning may cause an increase in symptoms but they should not last for more than 24 to 48 hours.

By signing below, I do hereby agree and give my consent for Fenix Physical Therapy & Performance, LLC, to furnish care and treatment to me or the minor patient listed below that is considered necessary and proper in diagnosing and treating my physical condition, both physical therapy and/or strength and conditioning. This may include, but is not limited to: exercise, hands-on treatment, or use of medical tools and devices, whose purpose will be explained prior to use. I understand that Austin Fair, PT, DPT of Fenix Physical Therapy & Performance, LLC will take into consideration my/minor patient's conditioning and use his or her best judgment for my minor patient's safety to help achieve the goals for the treatment. I understand any potential risks, advantages of treatments, and options I have for alternatives. I agree to fully cooperate with and actively participate in all physical therapy procedures, and comply with the established plan of care. I understand that I may start my request for treatment before any procedure or test.

If we do, you agree to pay the late payment interest fees as stated below. You further understand that we are not obligated to discount any portion of our service or interest fees when your case settles regardless of the amount of your settlement, judgment or verdict or whether your settlement, judgment or verdict adequately covers your balance due to us.

Out-of-Network (OON) Insurance Benefits Reference Sheet

Navigating insurance can be difficult, we will do everything we can to help you with this process. Below is some helpful information. Please understand, this worksheet was created to assist you in obtaining reimbursement for Physical Therapy services and is not a guarantee by Fenix Physical Therapy & Performance, LLC, of reimbursement to you.

- **Deductible:** A deductible must be satisfied before the insurance company will pay for therapy treatment. Submit all bills to help reach the deductible amount.
- **Co-Pay:** If you have an office visit co-pay the insurance company will subtract that amount from the percentage they will pay. This will affect the amount of reimbursement you will receive.
- **Reimbursement:** The reimbursement percentage will be based on your insurance company's established "reasonable and customary/fair price" for the service codes rendered. This price will not necessarily match the charges billed; some may be less, some may be more.
- **Referral or Prescription:** If your policy requires a referral or prescription from a provider you must obtain one to send in with the claim. Each time you receive an updated referral you'll need to include it with the claim.
- **Pre-Authorization:** If your policy requires pre-authorization and the insurance company doesn't have one listed yet, you'll need to call the referral coordinator at your provider's office. Ask her to file a referral for your physical therapy treatment that is dated to cover your first physical therapy visit. Be aware that referrals and pre-authorizations have an expiration date and some set a visit limit. If you are approaching the expiration date or visit limit you'll need the referral coordinator to submit a request for more treatment.
